EDUCATION

The Hong Kong Polytechnic University **Hong Kong,China**
Master of Science in Intelligent Construction *09.2026-07.2027*

- Key Courses: Human-Computer Interaction (HCI), Information Technology, Machine Learning & Data Mining, Automation & Robotics, Project Management, Visualization & Interactive Technology.
- Master's Dissertation: LLM-assisted Project Scheduling & Manufacturing Plan Checking

Huaqiao University **Xiamen,China**
Bachelor of Architecture *09.2021-06.2026*

- Key Courses: User Research Methodology, Feasibility & Post-Occupancy Evaluation, Parametric Digital Fabrication, Computer-Aided Design, Visual Elements & Design Theory.

WORK & INTERNSHIP EXPERIENCE

Fujian Electronic Port Co., Ltd.
Product Assistant Intern *12.2025-02.2026*

- **Product Requirements & Technical Documentation**: Participated in Product Requirement Document (PRD) review meetings for AI/IoT products, including Gantry Crane Anti-Collision System (GCPS), OCR Recognition System, and GNSS Auto-Steering System. Authored 7 technical test reports and user manuals, and created 8+ system logic diagrams using CAD and Visio.
- **Testing & System Tuning:** Conducted functional testing and precision verification for LiDAR obstacle avoidance sensors; set up host PC platforms for parameter tuning and optimized LiDAR precision calculation algorithms.
- **Operations & Closed-Loop Management:** Managed daily operations and maintenance for multiple subsystems; established an Issue Log and tracked R&D progress, increasing fault resolution efficiency by 15%.
- **Competitive Research & Iteration:**Benchmarked competitors' strategies to redesign recognition matching logic for OCR systems under extreme weather conditions; researched market applications for Pandar XT16 sensors and aligned integration interfaces with external vendors.

Huabang Construction Investment Group Co., Ltd.
Project Intern *05.2025-09.2025*

- **User & Market Data Analysis:**Collected regional macroeconomic, regulatory, and competitor data. Designed and distributed user surveys; performed cluster analysis to identify user personas.
- **Strategic Decision Support:** Built core evaluation metrics (market size, user preferences) and generated quantitative research reports/visual dashboards, reducing executive decision-making cycles by 20%.
- **Project Scheduling & Execution:** Assisted in formulating master and weekly schedules, tracked critical milestones, issued deviation reports, and proposed corrective actions to ensure on-time delivery.
- **Cross-Departmental Coordination:** Aligned cross-functional teams to streamline user feedback loops, facilitating rapid responses to project scope adjustments.

China Railway Fourth Group Co., Ltd. Fourth Branch
Engineering Management Intern *06.2024-10.2024*

- **Process Standardization:** Standardized project documentation templates and filing workflows, enhancing internal information flow efficiency by 15%.
- **Resource & Inventory Management:**Maintained material arrival schedules and inventory ledgers.
- **Project Administration:** Authored meeting minutes for weekly reviews and established a centralized project archive covering engineering contracts, technical specifications, and acceptance records.

PROJECT EXPERIENCE

Digital Construction of the Atrium Landscape Installation of the University Experimental Building
Position: Project Leader *06.2025-07.2025*

- **Parametric design:** Used Grasshopper to complete the morphological generation of the 5m×5m×5m landscape installation, and calculated the load-bearing of the components by finite element analysis tools to ensure the rationality of structural mechanics.
- **Physical construction:** led the on-site construction of the installation; coordinated the team to complete the assembly of 300+ components, and ensured the spatial error of ≤5mm via total station positioning, so as to complete the landing of the landscape installation with both artistic and structural stability.

EXTRA-CURRICULAR ACTIVITIES

Sangzi Micro Lab, Huaqiao University
Position: Core Member *07.2022-03.2023*

- **Promotion and Operations:** Responsible for content planning and creation for the WeChat Official Account, producing over 10 academic affairs articles with a single highest reading volume of 1,500+. Maintained high engagement for an 80,000+ follower account.
- **Event Planning:** Participated in the full-process planning of campus activities, coordinated with multiple departments to complete theme design and poster production.

ADDITIONAL INFORMATION

- **Skills**: LLM,AI Agent,Word,Excel,Rhino,AutoCAD,Revit,Photoshop,Adobe Illustrator,Adobe InDesign,BIM,stable diffusion
- **Language Proficiencies**: English (Proficient, Authentic),Mandarin(Mother Tongue),Cantonese(daily dialogue).
